NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE FISCAL PERIOD ENDED 30 SEPTEMBER 2020

1 GENERAL INFORMATION

Ownership Structure

On 2 September 2004, DHG Pharmaceutical Joint Stock Company (the "Company") was equitized from Hau Giang Pharmaceutical United Factory in accordance with Decision No.2405/QĐ-CT.UB dated 05 August 2004 issued by the People's Committee of Can Tho City. The Company was officially incorporated as a joint stock company, according to the Business registration certificate No.5703000111 dated 15 September 2004 issued by the Department of Planning and Investment of Can Tho City with the initial charter capital of VND 80,000,000,000.

The Company's shares were approved to be listed in Ho Chi Minh City Stock Exchange on 01 December 2006 under the Stock Listing License No.93/UBCK-GPNY of the State Securities Commission, with "DHG" ticker.

The largest shareholder of the Company is Taisho Pharmaceutical Co., Ltd which owned 51.01% and the State Capital Investment Corporation ("SCIC") which owned 43.31% of share capital of the Company. SCIC is controlled by Commission for the Management of State Capital at Enterprises.

The Company's head office is located at 288 Bis Nguyen Van Cu Street, An Hoa Ward, Ninh Kieu District, Can Tho City, S.R. Vietnam.

The number of employees of the Group as at 30 September 2020 was 2,750 (as at 31 December 2019: 2,872).

Operating industry and principal activities

The Group's operating industry is to manufacture and sell pharmaceutical products.

The Group's principal activities are to manufacture and trade pharmaceuticals, medical tools and supplies, medical equipment, dietary supplements and cosmeceuticals.

The Group's structure

As at 30 September 2020 and 31 December 2019, the Company's subsidiary and associate were as follows:

Name	Principal activities	Business Registration Certificate	Proportion of contract and power h	voting
			Closing balance	Opening balance
Subsidiary Fuji Medic Limited Liability Company	Health care services	No. 1801472944 issued by the Planning and Investment Department of Can Tho City on 27 July 2016	51%	51%
Associate Vinh Hao Spirulina Algae Corporation	Manufacturing and trading spirulina algae	No. 4803000150 issued by the Planning and Investment Department of Binh Thuan Province on 4 February 2008	31.36%	31.36%

According to the Resolution of the Board of Directors No. 003/2019/NQ.HĐQT dated 1 April 2019, the Board of Directors of the Company approved the plan to transfer its interest in Fuji Medic Limited Liability Company ("Fuji Medic") or to liquidate its assets for dissolution of this company. As at the date of these consolidated financial statements, the Company is liquidating the assets of Fuji Medic.

1 GENERAL INFORMATION (cont.)

Normal production and business cycle

The Group's normal production and business cycle is carried out for a time period of 12 months or less.

Disclosure of information comparability in the consolidated financial statements

Comparative figures on the consolidated balance sheet are the figures of the audited consolidated financial statements for the fiscal year ended 31 December 2019. Comparative figures on the consolidated income statement and consolidated cash flow statement are the figures of the consolidated financial statements for the fiscal period ended 30 September 2019.

2 ACCOUNTING CONVENTION AND FISCAL YEAR

Accounting convention

The consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to consolidated financial reporting.

The consolidated financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Fiscal year

The Group's fiscal year begins on 1 January and ends on 31 December.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Group in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the financial period. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Parent Company and enterprises controlled by the Group (its subsidiaries) up to 30 September each year. Control is achieved where the Group has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Group.

Intra-group transactions and balances are eliminated in full on consolidation.

Non-controlling interests in the net assets of consolidated subsidiary are identified separately from the parent's ownership interests in them. Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Basis of consolidation (cont.)

Assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognized as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit and loss in the year of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities and contingent liabilities recognized.

Investments in associate

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results, assets and liabilities of associate are incorporated in these financial statements using the equity method of accounting. Interests in associate are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Group's share of the net assets of the associate. Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are not recognized.

Where a group entity transacts with an associate of the Group, unrealized profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in transit, demand deposits and short-term investments with maturity term not exceeding 3 months from the date of investment, which are highly liquid, readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Financial investments

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Board of Management has the positive intent or ability to hold to maturity.

Held-to-maturity investments include term deposits to earn periodic interest (except for term deposits presented in "cash and cash equivalents" item). These investments are measured at cost less provision for impairment of financial investments. Interest income from term deposits is recognized in the income statement on accrual basis.

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

Equity investments in other entities

Equity investments in other entities represent the Group's investments in ordinary shares of the entities over which the Group has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment. The provision for impairment of these investments is made when the entities made losses, except for loss that was anticipated in their business plan before the date of investment.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of inventories comprises cost of purchases and other directly attributable expenses. In the case of manufactured products, cost comprises direct materials and where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realizable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realizable values as at the consolidated balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	Years
Buildings and structures	3 - 50
Machinery and equipment	3 - 20
Motor vehicles	3 - 20
Office equipment	3 - 10

Gain or loss resulting from sales and disposals of tangible fixed assets is the difference between proceeds from sales or disposals of assets and their residual values and is recognized in the consolidated income statement.

Operating leases

The Group as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Group as lessee

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Rentals payable under operating leases are charged to the consolidated income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Intangible fixed assets and amortization

Intangible fixed assets represent the value of land use rights and computer software that are stated at cost less accumulated amortization.

Definite land use rights are amortized using the straight-line method over the terms indicated in the land use right certificate. Indefinite land use rights are carried at cost and not amortized under prevailing regulations.

Intangible fixed assets and amortization (cont.)

Computer software is amortized using the straight-line method over its useful life from 3 to 8 years.

Investment properties

Investment properties are buildings, or part of buildings or infrastructure or buildings and land held by the Company to earn rentals or for capital appreciation. Investment properties held to earn rentals are stated at cost less accumulated depreciation while investment properties held for capital appreciation are stated at cost less impairment loss. The costs of purchased investment properties comprise their purchase prices and any directly attributable expenditures, such as professional fees for legal services, property transfer taxes and other related transaction costs. The costs of self-constructed investment properties are the finally accounted construction or directly attributable costs of the properties.

Investment properties held to earn rentals are depreciated using the straight-line method over their estimated useful lives from 10 to 16 years.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost. Cost includes costs that are necessary to form the assets in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepayments comprise leasehold improvement expenses, land rentals, costs of small tools, supplies and spare parts issued for consumption and other prepayment expenses.

Land rentals represent the prepaid land rentals. The prepaid land rentals are allocated to the consolidated income statement using the straight-line method over the lease term.

Others have been capitalized as prepayments, and are allocated to the consolidated income statement using the straight-line method in accordance with the current prevailing accounting regulations.

Provisions

Provisions are recognized when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation. Provisions are measured at the Board of Management's best estimate of the expenditure required to settle the obligation as at the consolidated balance sheet date.

Severance allowance payable

The severance allowance for employees is accrued at the end of each reporting year for all employees having worked at the Group for full 12 months and above. Working time serving as the basis for calculating severance allowance shall be the total actual working time subtracting the time when the employees have made unemployment insurance contributions as prescribed by law, and the working time when severance allowance has been paid to the employees. The allowance made for each year of service equals to a half of an average monthly salary under the Vietnamese Labor Code, Social Insurance Code and relevant guiding documents. The average monthly salary used for calculation of severance allowance shall be adjusted to be the average of the 6 consecutive months nearest to the date of the consolidated financial statements. The increase or decrease in the accrued amount shall be recorded in the consolidated income statement.

Provision for dismantling and restoration costs

In accordance with Circular No.200/2014/TT-BTC issued by the Ministry of Finance, since 1 January 2015, the Group is required to provide for dismantling and restoration costs of the Group's leased premises or land. The provision for dismantling and restoration costs is determined based on the estimated dismantling and restoration costs to be incurred at the time of returning the premises or land at the end of the lease term and recognized on a straight-line basis over the period from 1 January 2015 to the time of returning the premises or land.

Unearned revenue

Unearned revenue represents the fair value of goods and services provided to customers for free or at discount in the customer loyalty programs. Unearned revenue is recognized for the portion of obligation that the Group has not yet fulfilled to customers.

Revenue recognition

Revenue from the sale of goods is recognized when all five (5) following conditions are satisfied:

- (a) The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits associated with the transaction will flow to the Group; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue of a transaction involving the rendering of services is recognized when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognized in each period by reference to the percentage of completion of the transaction at the consolidated balance sheet date. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Group;
- (c) The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

Dividend income from investments is recognized when the Group's right to receive payment has been established.

Sales deductions

Sales deductions include trade discounts, sales returns and allowances. Sales deductions incurred in the same period of the related sales of products, goods and services are recorded as deduction of revenue of that period.

Sales deductions for the products, goods or services which are sold in the previous periods, incurred after the balance sheet date but before the issuance of the financial statements are recorded as deduction of revenue of the current reporting period.

Customer loyalty programs

Revenue is recognized at total consideration received less fair value of goods and services which are provided to customers for free or at discount. Fair value amounts of goods and services provided for free or at discount are recognized as unearned revenue. If customers do not meet the required conditions stated in the customer loyalty programs at the end of the programs and hence, are not entitled to the free or discounted goods and services, the unearned revenue is realized into the income statement.

When customers meet all the required conditions and the Group is the one providing the free or discounted goods and services to customers, the unearned revenue is realized into the Group's income statement at the time that obligations to customers are fulfilled, which means goods are delivered and services are rendered to customers.

Customer loyalty programs (cont.)

When customers meet all the required conditions and obligations of providing the free or discounted goods and services to customers are carried out by a third party. If the Group does not act as an agent of the third party, the unearned revenue is realized into the Group's income statement at the time that third party provides the free or discounted goods and services to customers. If the Group acts as an agent of the third party, the Group recognizes revenue for the difference between the unearned revenue amount and the amount payable to the third party for providing such free or discounted goods and services to customers. The amount paid to the third party is treated as the payment of the liability.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognized in the consolidated income statement.

Borrowing costs

Borrowing costs are recognized in the income statement in the year when incurred unless they are capitalized in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalized even when the construction period is under 12 months.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable income for the period. Taxable income differs from profit before tax as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable income and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognized for all temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable income will be available against which deductible temporary differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized. Deferred tax is charged or credited to the consolidated income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Group intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are applied in accordance with the prevailing tax laws in Vietnam.

Dividend distribution

The Company's profit after tax is available for appropriation to shareholders as dividends after approval by shareholders at the Company's Annual General Meeting of Shareholders.

Dividends are declared and paid from retained earnings based on the approval of shareholders at the Company's Annual General Meeting.

Dividend distribution (cont.)

Appropriation of the Company's net profit after tax of 2019 was approved by shareholders at the Company's Annual General Meeting as follows:

- Dividends declared for 2019: 40% of par value
- Appropriation to the bonus and welfare fund: 3% of net profit after tax
- Remuneration payment to the Board of Directors, Audit committee, Committees under the Board of Directors and the Board of Directors' secretary: VND 6,000,000,000
- Remaining net profit after tax was appropriated to the investment and development fund
